REPORT OF SCHOOL BOARD.

In presenting this annual report, we wish to thank the teachers for their faithful services and to congratulate the scholars for the progress made in their studies the past year.

We have increased the school year one week, having held a spring term of ten weeks and a fall term of thirteen weeks. It was contemplated holding a winter term, but on account of the distance some of the scholars have to travel and the coldness of some of the houses, it was considered of doubtful propriety.

The attendance the past year has been very good. Seventy seven were on the Roll of Honor for the spring term, sixty for the fall term and forty for the whole year. The attendance in some districts deserves special mention, and shows the great interest of the parents in their children and their education.

We were glad to see an increase in the number of parents visiting the schools. Nothing helps a teacher so much as to see that the parents take an interest in their children's education.

We congratulate ourselves and the town on the condition of our school houses. The appearance of most of the grounds is pleasing, as the scholars and parents have commenced beautifying them. We hope that the people in all the districts will turn out next Arbor Day and work on the school grounds, removing rocks and bushes and setting out trees, so that in a few years the grounds will look pleasant and inviting. The American flag floats over two school houses, showing the patriotism of the scholars. We wish all the schools had flags.

Nearly all the houses are newly painted outside and two have been clapboarded the past year and painted. The Centre, Chick, North Sandwich, Durgin and Whiteface houses have been painted inside and otherwise repaired, and will not need much laid out on them for a number of years, except on seats

for the Centre Grammar school, as the present seats are worn out.

A new floor was laid in the North Sandwich house, making that building warmer and more healthy.

We think that the town can well be proud of its public buildings. Nothing shows the prosperity and enterprise of a community as well as good public buildings, and vice versa. We would recommend that the East Sandwich house be painted outside and in, and the Great Rock house be repaired inside, and the Lower Corner house be painted inside, then all our buildings will be in excellent repair.

We think the time has arrived to place modern desks in the houses. They can be placed in one room a year and the expense will not be noticed.

We have introduced Ellis' U. S. History. It has been well received by teachers and scholars, and will prove a valuable addition to our curriculum.

Our teachers have rendered faithful services, as the progress made in the school will show.

We have had to increase the pay in some schools in order to retain the services of or get true and tried teachers. We consider it better than to experiment with new teachers. We wish all our teachers had manual school training, but it is poor encouragement to spend time and money to fit oneself then teach for the pay a school teacher receives.

Thanking the town as a whole for their co-operation in making the schools what they are, we submit this report.
